

An evolving community of hope and healing

As we age, we may find ourselves seeking assistance to help maintain our quality of life.

Some of us need assistance at home; others need a new place to call home. Some are looking for an occasional respite; some need long-term care. And some of us may simply be caregivers who need some place to turn for support and reassurance, or guidance.

Whatever your needs, more than a century of experience has brought The Wartburg Adult Care Community insights into creating programs that make life easier and afford a range of choices, with varying levels of assistance, independence and financial options.

Skilled Nursing & Rehab

Recognizing the potential of each individual

The Wartburg Adult Care Community is committed to adding life to the years of everyone in our care.

We offer long term skilled nursing at our Waltemade Health Care Center & Pavilion, and sub-acute rehab (short term) at our Rehabilitation Center.

Working with each resident on an individual basis, offering activities specially designed to encourage their physical and mental well being.

Whatever the level of care you or your loved one needs, The Wartburg offers innovative programs, state-of-the-art facilities, a dedicated and comprehensive professional staff, and full-time chaplain. Helping set the tone for all is a service excellence initiative that emphasizes respect, integrity and compassion.

All contribute to creating an environment that encourages and enables our residents to live their lives to the fullest: physically, socially and spiritually.
